EXTENSION SCHOOL COMMITTEE

PAUL S. WAGNER, Chairman

HAROLD BENNETT CHRISTIAN R. GINGRICH PAUL A. W. WALLACE

GENERAL STATEMENT

ROM time to time members of the Faculty of Lebanon Valley College have been called upon to conduct "extension courses" in various places, so as to meet the needs of such persons as found it impossible to attend the courses given within the college. The service developed very naturally, and almost unnoticed. The college is always willing and ready to extend its services where they are needed and appreciated. To those who have so loyally supported and encouraged the success of this movement the college is greatly indebted. It hopes to meet this obligation by employing its educational facilities in a manner productive of the greatest service to those interested in educational advancement.

The courses offered are, for the most part, intended primarily for those engaged in teaching. However, all other qualified persons will be admitted to extension courses, and some courses are more or less definitely planned to meet the needs or interests of persons outside of the teaching group. All courses will be taught by members of the College Faculty, and will be of college grade and receive credit as such. The credits earned by High or Normal School graduates in these courses will be counted by Lebanon Valley College towards its Baccalaureate degrees.

THE MASTER'S DEGREE

Some of the courses offered in the Extension Department may be taken for credit towards a Master's degree, provided arrangements are made in advance with the instructor. Some extra work will be required, such as additional reading, reports, experiments, etc. The complete regulations governing graduate work for the degrees of A.M. and M.S. may be obtained upon application to the Registrar of the College.

EXPENSES

A fee of \$1.00 will be charged for matriculation and registration. The tuition charge for extension courses will be \$6.00 for each credit point, a point being a semester hour. For example, the charge for matriculation and registration in courses leading to eight points credit would be \$49.00. This is approximately the regular fee for tuition in the college. Fees for the first term are due and payable on or before October 12 and for the second term, on or before February 8. Remittances should be made to Lebanon Valley College, and may be sent by mail to Agent of Finance Committee.

SCHEDULE OF COURSES

CENTRAL HIGH SCHOOL Harrisburg, Pa.

Date of Organization, September 15, 1927, 7:30 P. M.

COURSES

DESCRIPTION OF COURSES

BIBLE

E-14. General Introduction to the English Bible. The aim of the course is to make a survey and develop an appreciative understanding of the history and literature of the whole Bible. Credit, 4 semester hours.

CHEMISTRY

E-14. General Chemistry. An introduction to the study of chemistry, including a study of the elements, their classification and properties, and a study of the important compounds of each element. During the course constant reference is made to manufacturing and industrial processes, and interpretation of the phenomenal material development of the present century is made in the light of the rapid increase in chemical knowledge. Each lecture will be illustrated by lecture experiments and the use of charts and industrial products. Credit, 4 semester hours.

The laboratory work of this course can, if desired, be done on Saturdays in the College laboratories, for which an additional credit of four semester hours will be given. The course thus offered is equivalent to Course Chemistry 18 offered in the College.

ENGLISH

- E-14. English Composition and Literature. The aim of the course is threefold: to stimulate the student to think and write clearly and accurately; to train the student to think independently, and assemble and organize material; to introduce the student to the best types of literature. Credit, 4 semester hours.
- E-64. A. Shakespeare's Comedies (first semester). A Midsummer Night's Dream, The Merchant of Venice, As You Like it, A Winter's Tale, The Tempest. Credit, 2 semester hours.
- B. Shakespeare's Tragedies (second semester). Macbeth, Julius Caesar, Coriolanus, King Lear, Othello. Credit, 2 semester hours.

This course may be taken with S-12 (Five Plays of Shakespeare, offered in the Summer School) to meet the requirements for a major or minor in English.

FRENCH

E-04. Elementary French. This course is for those who are beginning French. Its aim is to enable the student to write simple

French sentences and to read French of ordinary difficulty. It is part of French 06, which is prerequisite for French 16, which fulfills the modern language requirement for the baccalaureate degree. Credit, 4 semester hours.

GERMAN

E-14. Second Year German. Grammar, composition, and the reading and interpretation of texts of average difficulty. Open only to those who have had at least one year's previous study of German. This course is part of German 16, which meets the modern language requirement for the baccalaureate degree. Credit, 4 semester hours.

HISTORY

E-74. American Foreign Relations. A study of the History of American Diplomacy from the period of the American Revolution to the present time. The work of the first semester will extend to the close of the War with Mexico, and that of the second semester will cover the period from the administration of President Taylor to that of President Coolidge. Credits in this course will be accepted as requirement in United States History. Credit, 4 semester hours.

MATHEMATICS

E-44. Differential and Integral Calculus. Differentiation of algebraic and transcendental functions, maxima and minima, development into series, etc. Integrations, rectification of curves, quadrature of surfaces, cubature of solids, etc. Credit, 4 semester hours.

PSYCHOLOGY

- E-72. The Psychology of Childhood. (First semester.) A course dealing with the characteristics of original nature; innate tendencies and instincts; general tendencies, habits and learning of children; cross-section of child life at various ages and the exceptional child. Credit, 2 semester hours.
- E-42. The Psychology of Adolescence. (Second semester.) A study of the anatomatical, physiological and psychological changes characterizing adolescence; the question of motives, personality, emotions, the environment and social relations will be considered. Credit, 2 semester hours.

SOCIAL SCIENCE

E-14. Economics. A course dealing with the fundamental principles of the existing economic order such as wealth, division of labor, production, capital, value, speculation, money and the mechanism of exchange, price changes, banking and the banking

system of the United States, foreign exchange and international trade, interest, rent, wages, taxation, socialism. The course is partly a lecture course and partly a discussion course on modern economic problems. Text: Taussig, "Principles of Economics." Credit, 4 semester hours.

E-14. Principles of Sociology.—A study of the development of society and the various principles and theories relating thereto. Modern social problems are discussed. Credit, 4 semester hours.
